IMPORT TRADE CONTROL

New Delhi, the 16th June, 1952

No. 7-ITC/52.—The following Open General Licence issued by the Central Government under the Notification of the Government of India in the late Department of Commerce No. 23-ITC/43, dated the 1st July 1943, as continued in force by the Imports and Exports (Control) Act, 1947 (XVIII of 1947), is published for general information:—

IMPORT TRADE CONTROL—OPEN GENERAL LICENCE No. XXIV.

In pursuance of the Notification of the Government of India in the late Department of Commerce No. 23-ITC/43, dated the 1st July 1943, as continued in force by the Imports and Exports (Control) Act, 1947 (XVIII of 1947), the Central Government hereby gives general permission to all persons to import into India from any country in the world except the Union of South Africa any goods of any of the descriptions specified in the annexed Schedule:

Provided that,

- (i) in the case of goods of the descriptions specified in the Schedule below such goods have not been produced or manufactured in the Union of South Africa;
- (ii) such goods are shipped on through consignment to India on or before the 31st March 1953 without any grace period whatsoever; and

(1549)

- (iii) nothing in this licence shall affect the application to any goods of any prohibition or regulation affecting the import thereof in force at the time when such goods are imported.

SCHEDULE

Description	Part of I. T. C. Schedule	S. No.
1	2	3
Ferro chrome	I	10
Bulb angles	I	15
Unmachined Wrought Iron	I	40
Copper, wrought in the following forms, viz., strip, tape, foil, highly polished sheet specially prepared for making process blocks, lithographic sheet and copper perforated sheets.	I	41
Copper scrap whether ingotted or otherwise	I	42
Lead ingot, pig and lead scrap.	I	43-A
Zinc or Spelter, unwrought, including mazak alloys of zinc and aluminium containing not less than 94% zinc, zinc dross, dust, ashes and zinc in the form of ingots, cake, tile, slab, plate and granulations including all forms of zinc scrap and zinc wrought including wire rods, sections, sheets including highly polished sheet specially prepared for making process blocks, lithographic sheet and the following manufactures, viz., zinc perforated and sheet cut to size.	I	44
Brass, bronze and similar alloys unwrought and in the form of ingot and scrap whether ingotted or otherwise and the following manufactures, viz., perforated sheets.	I	46
Nickel alloys and Nickel chrome alloys including manufactures and scraps thereof.	I	46
Copper, unwrought, ingots, blooms, slabs, cakes, tiles blocks, bricks, billets, cathodes, blister bars, electrolytic wire bars and ingot bars.	I	47
Nickel, including nickel scrap in all forms, excluding manufactures thereof.	I	48
All alloys of copper including phosphor copper and cupro nickel and scrap of such alloys in all forms but excluding all manufactures.	I	49
Monel metal	I	50
Tungsten metal powder and other tungsten products .	I	51
Molybdenum metal powder	I	52
Fabricated Iron and Steel Sheets for the construction of coal tubs, fabricated galvanised iron sheets for roofing railway wagons.	I	56
Iron and Steel Buffers for locomotives, wagons and carriages whether for railways or tramways. Railway or tramway coiled springs.	I	57

1	2	3
Locomotive Piston Rods and Motion Parts	I	58
Raw Manila hemp (fibre).	II	3
Raw hemp excluding raw manila hemp (fibre)	II	4
Copper electrodes and rod, foil, wire and strip for gas welding and brazing.	II	10
German Silver including Nickel Silver and scraps thereof	II	11
Aluminium in any crude form, including ingots, bars, blocks, slabs, billets, shots, pellets and wire rods for the manufacture of electrical conductors.	II	13
Zinc electrodes.	II	15
Electrodes and rods, foil, wire and strip made of brass, bronze and other similar alloys for gas welding and brazing.	II	16
Cadmium, cobalt, manganese, magnesium, bismuth, tungsten, molybdenum, silicon, chromium, vanadium and other virgin non-ferrous metals not otherwise specified and manufactures thereof and also including metal manufactures, Dental silver alloy in 1 and 5 oz. packing, Aluminium alloy items containing not more than 97% of aluminium in the form of plates, sheets, circles, strips, rods, bars, tubes, sections, wires and rivets, and magnesium powder also electrodes, rods, foil, wire and strip for gas welding and brazing.	II	17
Roller bearings	II	19 (1)
Taper bearings	II	19 (2)
Spare parts for Diesel Engines excluding road vehicular type Diesel Engines, only the following namely:—	II	30
(1) Fuel pump and injection unit (excluding pipe connections).		
(2) Crank shafts, including oil throwers, Banjo coilers and or crank shaft gear wheels and balancing weights provided there are imported as a complete assembly.		
(3) Piston rings above 6" diameter.		
(4) Springs.		
(5) Thin walled bearings.		
(6) Valves and Valve guides.		
(7) Air cleaners.		
Electrical Generators either with or without prime movers, provided the brake horse power of the prime mover, if it is an internal combustion engine, is not less than 25 brake horse power, together with the Switchgear, switchboard and indicating and recording instruments but excluding transformers. In the case of generators with prime movers of steam turbine type, steam raising equipment, boiler feed equipment and control equipment required for working the generator up to its maximum capacity may also be imported. Similarly, in the case of generators with prime mover of hydraulic turbine type, the control equipment for working the generator up to its maximum capacity may be imported.	II	32
Spare parts of Power-driven pumps all sorts excluding Trailer pumps.	II	34
Special pumps for fused caustic soda or acids	II	34
Component parts of ball bearings exceeding 2" in diameter and component parts of roller and taper bearings excluding plunger blocks and housings but including nuts and washers and adapter sleeves.	II	36 (5)
Studio and Projector lamps of B.S. Specification No. 1075 of 1943 and 1522 of 1949.	II	38-A
Thermocouples and pyrometers	II	39

1	2	3
Synthetic graphite and Amorphous carbon electrodes as used in Electric Furnaces for production of Iron, Steel Ferro-alloy and non-ferrous metals. Synthetic Graphite and Amorphous carbon electrodes for use in electrolytic processes. Carbon furnaces (liner) blocks for use in electric furnaces.	II	41-A
(i) Flexible metallic tubes designed as a part of a transmission system	} II	43
(ii) Paper insulated power cables		
(iii) High tension Insulators		
Electric carbons	II	46
Hearing-Aid Batteries and Diaphragms for electrolytic cells	II	46-A
Component parts of ball bearings exceeding 2" in diameter and component parts of roller and taper bearings excluding plummer blocks and housings but including nuts and washers and adapter sleeves.	III	4 (5)
Card clothing and card Accessories	III	5 (1)
Machine cloth	III	5 A
Wax, all sorts not otherwise specified excluding paraffin wax, dry battery wax, red and black.	IV	56
The Drugs and medicines, listed below either in their pure form or as preparations thereof, except where preparations are specifically excluded and also excluding Pharmacopoeial Tinctures and Liquors.	IO	109
Acid Acetyl Salicylic excluding preparations thereof.		
Acid Salicylic excluding preparation thereof.		
Amino acids.		
Amyl Nitrite.		
Anaesthetics surface, regional and general (excluding ether anaesthetics, chloroform and ethyl chloride).		
Apomorphine Hydrochloride.		
Aureomycin.		
Balsam Tolu excluding preparations thereof.		
Barium Sulphate for X-ray examination.		
Calcium Glucono Galacto Gluconate.		
Chloramphenicol (Chloromycetin, etc.).		
Choline Chloride.		
Chlorbutol.		
Cocaine Hydrochloride.		
DDT (Dichophanum) excluding preparations thereof.		
Dental anaesthetics excluding ethyl chloride.		
Dextrose in Powder form, excluding preparations thereof.		
Diethyl Carba-mazine.		
Digitalis and active principles of digitalis.		
Emetine Hydrochloride.		
Ephedrine and its salts including Pseudo Ephedrine.		
Ergot and its Alkaloids excluding extract Ergot liquid.		
Glandular drugs and hormones natural and synthetic (excluding liquor adrenaline hydrochloride, extract pituitary liquid, liver extract and preparations of liver extracts).		
Hexamine.		
Homatropine hydrobromide.		
Inositol.		
Insulin, all sorts.		
Iodine and Iodides excluding preparations thereof.		
Malt extract excluding its preparations with cod liver or other fish liver oils.		
Medicinal contraceptives.		
Menthol excluding preparations thereof.		
Methadone Hydrochloride or amidone Hydrochloride.		
DL-Methionine.		
Mercury salts excluding preparations thereof.		

1	2	3
<p>Methyl Salicylate excluding preparations thereof. Normal Human Blood Plasma. Paraldehyde. Penicillin in bulk (excluding all forms of bottled penicillin and its preparations.) Pethidine Hydrochloride. Phenol excluding preparations thereof. Phenacetin excluding preparations thereof. Pilocarpine and its salts. Santonin. Sodium salicylate excluding preparations thereof. Sulpha drugs including preparations but excluding tablets. Tetrachlore thylene excluding preparations thereof. Terramycin Thiopentone sodium. Thymol. Tuberculin. Vitamins including folic acid (but excluding tablets and preparations, also excluding cod liver oil and other fish liver oils and preparations thereof.) X-Ray diagnostic reagents.</p>		
(NOTE.—The provisions of the Drugs Act, 1940 and the rules thereunder should be complied with wherever necessary.)		
Cinematograph films not exposed	IV	116
Plumbago and Graphite	IV	122
Pine Oil	IV	126
The following articles of paper designed for use in laboratories or for other scientific purposes, namely :—	IV	159
Filter Paper		
Paper charts for use with an instrument.		
Recording Paper for use with an instrument.		
Brush out cards (shade cards).		
Trade catalogues and advertising Circulars imported by packet, book or parcel post.	IV	162
Printed advertising material	IV	168
Standard technical books or books of reference concerning law and legal practice, or for use in connection with medical practice, scientific research, or industrial processes.	IV	169
Books, printed including Covers for printed books, maps, charts and plans, proofs, music manuscripts, and illustrations specially made for binding in books, but excluding books falling under Serial No. 169 of this Part of this Schedule.	IV	170
Refractories, Special types thereof, the following :—	IV	237 & 238
Acid and heat resisting bricks and packing rings for 98% Sulphuric acid.		
Asbestos Bricks and blocks.		
Carbon Bricks.		
Chrome Magnesite Bricks.		
"Cement Fondu" or any other Aluminous Cement.		
Diatomite Bricks		
Diaspore Bricks.		
Dolomite Bricks.		
Dolomite-Chromite Bricks		
Fused Alumina Bricks or Molten Alumina Bricks.		
Fused Silica Ware.		
Plumbago Bricks.		
Refractory Porcelain.		
Semi-Silica Bricks.		
Silicon Carbide and similar Bricks.		
Spinel Bricks.		
Zircon or Zirconium Silicate Bricks.		
Zirconia Bricks.		

	1	2	3
The following items of Laboratoryware made of China and Porcelain namely :— Combustion Boats. Evaporating basins Porcelain. Casseroles, Porcelain. Gas Generators, Glass and Porcelain. Spotting tiles (only such specialised tiles used in laboratories and described as such for Scientific purposes and not tiles with designs imprinted on them). Acid trays. Mercury troughs.	IV		240
The following articles of laboratory enamelledware, namely :— Enamelled Iron Sulphonating pots.	V		269
X-Ray films	IV		302
The following items of photographic apparatus specially designed for use as part of or in conjunction with scientific or optical instruments, namely :— Microscope cameras. Spectrographic cameras and plates and films.	IV		305
X-Ray Diffraction cameras and plates and films.			
Special greases and lubricants for chlorine, caustic soda and sulphuric acid service.	V		8
Metallic ores all sorts except ochres and other pigment ores, but including Antimony ore, in lump, powder or concentrated form.	V		14
Asphalt including Gilsonite	V		15
The following chemicals, namely :—	V		22
Activated carbon.			
Aluminium Fluoride.			
Ammonium Carbonate and bicarbonate.			
Ammonium Chloride.			
Amyl Acetate.			
Antimony Oxide.			
Antimony Sulphide.			
Arsenious Acid/Arsenic Trioxide.			
Barium Carbonate.			
Barium Chloride.			
Barium Nitrate.			
Barium Peroxide.			
Bismuth Subnitrate.			
Bismuth Carbonate.			
Bismuth Oxide.			
Bismuth Salicylate.			
Butyl Acetate.			
Butyl Alcohol.			
Chemically pure mercury.			
Calcium Silicide.			
Carbanita undyed.			
Carbon Tetrachloride.			
Case hardening compounds, like Rapidip, etc.			
Chloro Sulphonic Acid.			
Cobalt Sulphate.			
Cyclohexanol.			
Deca-hydro Naphthalene.			
Diethanolamine.			
Diacetone Alcohol.			
Formaldehyde.			
Fluxes for gas welding, melting and refining metals.			
Freon (dichlorodifluoromethane) gas and its modified products used for the same purpose.			
Grey cast iron powder.			
Hexachlorethane.			
Iodine and Iodides.			
Lauryl Alcohol.			

	1	2	3
Methyl Amyl Acetate.			
Methyl Cyclohexanol.			
Monoethanolamine.			
Oleyl Alcohol.			
Phenol.			
Parachloro meta cresol.			
Phosphorous Amorphous.			
Poly-vinyl Alcohol.			
Potassium Xanthates.			
Rare Gases <i>e.g.</i> Helium, Neon, Krypton, Xenon, Argon, and mixtures of Argon and Nitrogen.			
Resorcinol.			
Rubber accelerators.			
Rubber antioxidants.			
Sodium Azide Solids.			
Sodium Cyanide.			
Sodium Nitrate.			
Sodium Orthophenylphenate.			
Sodium Xanthates.			
Strontium Carbonate.			
Strontium Nitrate.			
Strontium Oxalate.			
Strontium Peroxide.			
Sulphur Dioxide.			
Tetra Hydronaphthalene.			
Triethanolamine.			
Urea.			
Water treatment chemicals like Alfoo, calgon S.			
Gas cylinders when imported with gas provided gas is included in this O. G. L.	V		22-A
Sulphur crude below 97% ; Sulphur refined	V		25
Selenium	V		29
The following chemicals, namely :—	V		31
Acetic Acid.			
Boric Acid including Boric Oxide, Boric Acid Glass powder, Boric Acid Anhydride.			
Calcium Carbide.			
Potassium Carbonate.			
Potassium Chloride.			
Potassium Ferrocyanide.			
Potassium Perchlorate Powder.			
Potassium Hydroxide.			
Rock Phosphate and Sodium Nitrate only	V		40
Wood and Timber all sorts not otherwise specified including all sorts of ornamental wood, but excluding Agar-wood, Tagar-wood, Sandal-wood and Ply-wood.	V		42
Wood pulp	V		43
Printing paper which contains mechanical wood pulp amounting to not less than 70 per cent of the Fibre content and which weighs not less than 40 grammes per square metre.	V		44
Acid resisting and chlorine resisting blowers and compressors, Chlorine and acid resisting valves, Chlorine cylinders and valves thereof, cylinders testing equipments and spares, spraying nozzles for chamber, plants.	V		65
Component parts of Ball bearings exceeding 2" in diameter and component parts of roller and taper bearings excluding plummer blocks and housings but including nuts and washers and adapter sleeves.	V		65 (5)
Hosiery needles for hosiery machinery and knitting machines whether operated by manual labour or mechanical power.	V		69-A
Spare parts for agriculture tractors and for tractor drawn agricultural implements.	V		74
Agricultural implements tractor drawn only	V		74
Power driven agricultural machinery other than Tractors	V		74

	1	2	3
The following Electric Instruments, apparatus and appliances, suitable for use in Laboratories, namely :—	V		78
Pointolite lamps.			
Electrometers.			
Induction Coils.			
Electric ovens and stills, all sorts.			
Micro projectors.			
Vacuum pumps, electric.			
Electric Stirrers.			
Electrical contact thermometers.			
Platinum resistance thermometers.			
Instrument Rectifiers.			
Furnace for fusion point of coal ash.			
Moisture oven.			
Dielectric test apparatus.			
Insulating Oil testers.			
Oscillators and oscillographs.			
Calomel electrodes.			
Hydrogen electrode.			
Quinhydrone electrode.			
Morton electrode.			
Glass electrodes.			
pH Meters.			
pH Recorders.			
Dionic water tester.			
Conductivity meter.			
Electrical heating elements.			
Electrical Soldering irons.			
Hearing-Aids and parts thereof.			
Electro medical apparatus including Ultra violet and infra Red Lamps for medical treatment.	V		70
Scientific and surgical instruments apparatus and appliances not made of rubber and also not made of glass.	V		93
The following optical and other instruments, namely :—			
Microscopes and accessories.			
Microscope slides and cover glasses.			
Heading telescopes.			
Brinell's Microscope.			
Boiling Flasks, all sorts.			
Colorimeters, comparators.			
Crucibles, Sintered glass.			
Dental suction forms, dental scrapers and finishers, dental contouring pliers.			
Eudiometers.			
Extraction thimbles.			
Gas washing bottles.			
Gas generating bottles.			
Indicator papers including litmus paper, paint testing paper and potassium iodide paper.			
Tinto meter.			
Hinges and joints for spectacle frames and rough blanks.			
Dental rubber suction discs			
Dental rubber $\frac{1}{2}$ lb. pk. Denature rubber ligatures.	V		94
Asbestos, raw	V		98
Gas black, thermatomic black, acetylene black and carbon black also including lamp black.	V		106
Glucose powder, Dextrose in packings over 1 lb.	V		108
Nickel catalyst	V		110
Stereo flouga	V		115
Synthetic Resins in the manufacture of which formaldehyde phenol, cresol or Urea is used and hardeners when imported along with resins.	V		116

1	2	3
Synthetic Resins in the manufacture of which formaldehyde phenol, cresol or Urea is not used and hardeners when imported along with resins.	V	116-A
The following articles of laboratory-ware made of Silica, namely :—	V	122
Silica weighing bottles.		
Silica specific gravity bottles.		
Silica basins and dishes.		
Silica beakers.		
Silica capsules.		
Silica casseroles.		
Silica crucibles.		
Silica cover glasses.		
Silica flasks all types.		
Silica plates.		
Silica muffles.		
Silica plungers.		
Silica retort tubes.		
Silica tiles.		
Silica tubes.		
Silica tubing.		
Silica cells.		
Silica combustion boats.		
Silica porous dishes.		
Silica funnels.		
Silica interchangeable ground joints.		
Fluorspar	V	122
Vanadium Catalyst	V	122
Silica ware, equipment for sulphuric, hydrochloric and nitric acid plants ; ceramic equipments for chlorine plants.	V	122
Fluxes for gas welding, melting and refining metals	V	122

No. 8-ITC/52.—The following Open General Licence issued by the Central Government under the Notification of the Government of India in the late Department of Commerce No. 23-ITC/43, dated the 1st July 1943, as continued in force by the Imports and Exports (Control) Act, 1947 (XVIII of 1947), is published for general information:—

IMPORT TRADE CONTROL—OPEN GENERAL LICENCE No. XXV.

In pursuance of the Notification of the Government of India in the late Department of Commerce No. 23-ITC/43, dated the 1st July 1943, as continued in force by the Imports and Exports (Control) Act, 1947 (XVIII of 1947), the Central Government hereby gives general permission to all persons to import into India from all countries except (a) the United States of America and any territory under the suzerainty or sovereignty of the United States of America, Canada (including Newfoundland) and other American Account Countries, consisting of the Philippine Islands, Bolivia, Columbia, Costa-Rica, Cuba, Dominican Republic, Ecuador, Guatemala, Haiti, Honduras, Mexico, Nicaragua, Panama, Salvador, Venezuela and Liberia, and

(b) Union of South Africa, any goods of any of the descriptions specified in the annexed Schedule:

Provided that,

- (i) in the case of goods of the descriptions specified in the Schedule such goods have not been manufactured or produced in any of the excepted territories mentioned above;
- (ii) such goods are shipped on through consignment to India on or before the 31st March 1953 without any grace period whatsoever; and
- (iii) nothing in this licence shall affect the application to any goods of any prohibition or regulation affecting the import thereof in force at the time when such goods are imported.

SCHEDULE

Description	Part of I. T. O. Schedule	S. No.
1	2	3
Refined Ferro-Manganese (all grades below 3% Carbon)	I	11
Bifurcated Rivets and Timmen's Rivets	I	24
Iron or Steel Wire Rope and Wire Strand (Stranded Wire)	I	29
Iron or Steel Wire Staples galvanised or ungalvanised (excluding machine staples) and Boot and Shoe Grindery consisting of following items :—	I	36
(i) Light cut hand tacks for shoes ;		
(ii) Blue cut tacks ;		
(iii) Heel pins ;		
(iv) Steel eyelets and hooks for boots and shoes ;		
(v) Cutlery nails, hills, hobs, studs and spikes for boots and shoes ; and		
(vi) Steel shoe shanks.		
Iron and Steel Chains, all sorts	I	38
Copper, wrought in the following forms viz., rod section, pipes, and sheets including sheets cut to size, tubes, rods and pipes cut to shape and size.	I	41
Lead, wrought including the following, viz., pipes, tubes, foil, wire and sheet including sheet for tea chest.	I	43
Antimonial lead in the ingot and wrought form including the following, namely, pipe, tube and sheet.	I	43-B
Tin block, Tin scrap and Tin plate scrap	I	45
Tin, wrought, including the following, viz., foil and wire	I	45-A
Brass Bronze and similar alloys wrought, including the following viz., wire, rod, section, sheet, pipe and tube and the following manufactures viz., rod and tube cut to shape and size but excluding chemical or imitation gold.	I	46
Raw Sisal fibre	II	5
Aloe fibre	II	6
Sisal yarn	II	7
(i) Forged Steel Balls (in unmachined condition) of sizes above 9/16" diameter.	II	9
(ii) Steel Balls of sizes above 9/16" diameter (in machined and polished condition).		
Iron or Steel coated and uncoated electrodes and rods, wire, foil and strip for gas welding and brazing.	II	9

1	2	3
Aluminium circles, sheets, strips, and other manufactures not otherwise specified.	II	12
Tools and cutters tipped with tungsten carbide solid or inserted type and tungsten carbide tips.	II	20 (1)
Woodworking machine saws.	II	20 (2)
The following hand tools, viz., hacksaw-blades, tube expanders and all hand saws except fret or piercing saws.	II	20 (3)
Diamond lapping wheels or grinding wheels impregnated with diamond dust.	II	24
(i) Graphite crucibles for pit furnaces	II	26
(ii) Graphite crucibles including covers, muffles, rings and stands for tilting furnaces.		
(iii) Carborundum crucibles for pit fired furnaces.		
(iv) Carborundum crucibles for tilting furnaces.		
Hydrosulphite of soda, Rangolite C (Sodium Sulphoxy late Formaldehyde) or Formosul L. and Sodium nitrite.	III	1
Only the following dyes :— Dimethylaniline, Rhodamine, Rhodine.	III	1-B
Dates	IV	21
Fodder, Bran and Pollards	IV	42
Wattle extract	IV	43
Wattle bark	IV	44
Barks for tanning excluding wattle bark	IV	45
Cutch and gambier, all sorts	IV	46
Gum Arabic	IV	48
Gum, Benjamin (Ras and Cowrie) and Dammer (including unrefined batu) but excluding Rosin.	IV	49
Tallow including tallow tablets	IV	60
Palm Oil	IV	61
China clay and ball clay	IV	97
Mercury Amalgams and compounds	IV	108
The Drugs and medicines, listed below either in their pure form or as preparations thereof, except where preparations are specifically excluded and also excluding Pharmacopoeial Tinctures and Liquors.	IV	109
Acetanilide.		
Acid Tannic excluding preparations thereof.		
Acid Tartaric excluding preparations thereof.		
Adeps Lanae excluding preparations thereof.		
Arsenical preparations for treatment of venereal diseases.		
Bismuth Citrate.		
Bismuth Subnitrate.		
Bismuth Subcarbonate.		
Bismuth Salicylate excluding preparations thereof.		
Bismuth Tribromophenates excluding preparations thereof.		
Bismuth Oxide excluding preparations thereof.		
Bismuth Oxychloride excluding preparations thereof.		
Calcium Gluconate excluding preparations thereof.		

1	2	3
Calcium Hypophosphite excluding preparations thereof.		
Calcium Colloidal preparations for parenteral use.		
Calomel excluding preparations thereof.		
Enzymes.		
Glycosides of Strophanthus and Scilla.		
Leptazol.		
Mersalyl.		
Substitutes for Normal Human Blood Plasma comprising solution of Polysaccharide Glucose Molecules approved by the Drugs Controller (India), Directorate General of Health Services, New Delhi.		
Physostigmine and its salts.		
Proguanil Hydrochloride.		
Sodium Camphor sulphonate.		
Stibophen.		
Streptomycin and its salts.		
Sera, Vaccines, Toxins, Anti-toxins etc., excluding Cholera Vaccine, T.A.B. Vaccines, Anti-rabic Vaccine and Anti-venom Serum.		
Thiouracil and its alkyl derivatives.		
Urea.		
Vitamin preparations excluding Cod Liver Oil and other fish liver oils and their preparations.		

(Note.—The provisions of the Drugs Act, 1940 and the rules thereunder should be complied with wherever necessary).

Chrome splits	IV	143
Hides and skins, raw or salted	IV	144
Cork manufactures, not otherwise specified	IV	154
Textile materials, the following, raw flax, and all other un-manufactured textiles materials n. o. s. excluding raw jute.	IV	174
Mercury	IV	266
Needles for sewing machines	IV	288
Fishing hooks and Fishing line	IV	328
Table Tennis (Ping Pong) Balls	IV	325
Models of Human Jaw	IV	332 & 333
Gram and pulses	V	1
Dyeing and tanning substances, all sorts, not otherwise specified and excluding wattle extract and the articles specified in Serial No. 5 of this Part of this Schedule.	V	6
Gums, resins and lac all sorts n. o. s. excluding olibanum and frankincense.	V	7
Sperm oil	V	10
Fish preservatives, other than salt but including goraka	V	22
Borax, Tannic Acid and Sodium Bicarbonate	V	31
Explosives, namely :—Ballistite, Blasting gunpowder, Blasting gelatine, Blasting dynamite, Blasting roburite, Blasting tonite and all other sorts including detonators and Blasting fuses.	V	39
Rubber pressure and Vacuum tubing, Rubber contraceptives and Rubber Vaccine caps.	V	41
Wool raw and wool tops	V	47
Needles for all types of Sewing machines worked by 1/4 h. p. and above.	V	65 (5)

1	2	3
Gas masks and refills	V	92
Industrial diamond in all form including diamond grit and powder.	V	104
Polydichlorostyrene	V	113-B
Polystyrene	V	113-C
Polyvinyl Acetate	V	113-D
Polyvinyl Butyral	V	113-E
Polyvinyl Moulding Powders	V	113-H
Urea formaldehyde moulding powder	V	118
Casein	V	122
Cryolite	V	122
Petroleum Coke	V	122
Thermoplastic Moulding powder	V	122

PUBLIC NOTICES

IMPORT TRADE CONTROL

New Delhi, the 16th June, 1952

SUBJECT:—Principles governing the issue of Import Licences for July—December, 1952

No. 61-JTC(PN)/52.—The following decisions of the Government of India governing the issue of licences for the import of goods falling under Parts I (excluding items licensed by the Iron and Steel Control), II, III, IV, V and VI of the Import Trade Control Schedule for the licensing period July—December 1952 are hereby published for general information.

2. Licences will be granted to established importers, actual users and sole agents, as defined in the Handbook of Rules and Procedure 1952 as amended by Public Notice No. 55-ITC(PN)/52, dated the 29th May 1952, in accordance with the detailed statement set out in the Appendices published herewith.

3. The last date for receiving applications for licences from established importers and sole agents will be 31st August 1952. No last date has been fixed for applications made by actual users but applications received after the 1st December 1952 may have to be considered in terms of the policy to be announced for the next half year. In applying for licences, importers should comply with the provisions of the Handbook of Rules and Procedure 1952 and where appropriate the Plant and Machinery Handbook 1952 subject to any modifications indicated in this Public Notice and its appendices.

4. Certain changes have been made in the licensing authorities for particular items and in the period of validity of import licences for different items and these have been indicated in the appropriate place in the appendices.

5. The schemes for the licensing of Capital Goods, Heavy Electrical Plant and agricultural tractors as outlined in the Plant and Machinery Handbook will continue in force during July—December 1952 subject to changes indicated in the appendices. Likewise, the special arrangements for the grant of licences for stores ordered by the Director General of Supply and Disposals and raw materials required in the manufacture of goods for export as outlined in Chapter IV of the Handbook of Rules and Procedure will continue to be operative during July—December 1952.

APPENDIX A

Statement showing in tabular form the details of the current Licensing Policy

(a) Only brief descriptions of articles have been given in most instances in the Schedule below. For fuller description, a reference should be made to the Handbook of Rules and Procedure 1952. Where an item is shown as on O. G. L., for exact description of the item in O. G. L., O. G. Ls., should be referred to.

(b) The entry 'Nil' in Col. 4, denotes that no quota licence will be issued.

(c) The entry "Gen" in Col. 4 of the Appendix. A indicates that the policy is applicable to the Dollar Area also and that General Licences will be issued. In the absence of such an entry the policy should be read as applicable to the Soft Currency area only.

(d) The abbreviations shown in column 3 of the Schedule stand for the following authorities to whom applications for licences should be addressed:—

APPENDIX D

LIST OF DRUGS AND MEDICINES AND PHARMACEUTICAL CHEMICALS FALLING UNDER SERIAL NOS. 87 AND 109 OF PART IV FOR THE IMPORT OF WHICH, THE LICENSING POLICY INDICATED BELOW WILL BE FOLLOWED.

1. General licences will be granted on the basis of a quota of 50% of half of best year's imports of all drugs and medicines falling under S. Nos. 87 and 109 Part IV, whether included in this list or not but excluding those specifically mentioned in paras. 3 to 10 below. Such licences will be valid only for the import of the "listed medicines" as indicated in 13 below.

2. Soft currency licences will be granted on the basis of 80% of half of best year's imports of all drugs and medicines falling under S. Nos. 87 and 109 Part IV, whether included in this list or not but excluding those specifically mentioned in paras. 3 to 10 below. Not more than one-tenth of the face value of the soft currency licence, granted under this quota, can be utilised for the import of drugs and medicines not covered by the list but excluding those specifically mentioned in paras. 3 to 10 below.

3. General and Soft currency licences for Homeopathic medicines will be granted separately on the basis of a quota of 200 per cent.

of half of best year's imports of Homeopathic medicines from dollar and soft currency areas respectively.

4. General licences will be granted for imports of Streptomycin on the basis of 100% of half of best year's imports of this article from Dollar area.

5. Licensing policy for Penicillin and its preparations will be announced later.

6. General and Soft currency licences for 'Liver Extract Injectable' will be granted on the basis of a quota of 25% and 50% of half of best year's imports of this article from the Dollar area and Soft Currency area separately.

7. Soft currency licences for "Nikethamide" will be granted separately on the basis of 75% of half of best year's imports. The limiting factor for purposes of clearance of this article, will be both quantity and value.

8. As regards Antileprosy drugs (Sulphone series of drugs) and P. A. S. and its salts, the licensing policy will be announced later.

9. Soft currency licences will be granted for Calcium Lactate on the basis of 30% of half of best year's imports of this article.

10. The licences granted under this procedure will not be valid for the import of Caffeine and its salts and paraffin liquid B.P. or U.S.P. or its preparations.

11. Applications from actual users will only be considered for the drugs and medicines included in the essential list which are also required for further manufacture and processing.

12. Applications from sole agents will be considered only for specialities. If, however, the sole agent of a speciality is also an established importer it will be necessary for him to indicate, in case his sole agency claim was accepted, that he would be prepared to get his quota licence so amended as to allow the import of the speciality concerned along with the other drugs and medicines included in the essential list. If not, full reasons justifying his claim for an extra licence as Sole Agent should be furnished.

13. The Drugs and medicines, listed below can be imported either in their pure form or as preparations thereof except where preparations are specifically excluded. Pharmacopœial Tinctures and Liquors will not be permitted to be imported:—

Acid Anthranilic excluding preparations thereof.

Acid Benzoic and Benzoates excluding preparations thereof.

Acid Gluconic excluding preparations thereof.

Acid Glycerophosphoric excluding preparations thereof.

Acid Mandelic.

APPENDIX 'H'

LICENSING OF MOTOR VEHICLE PARTS FALLING UNDER SERIAL NOS. 293, 295 AND 297 OF PART IV FOR THE PERIOD JULY—DECEMBER 1952.

1. Licences for Motor Vehicle parts falling under Serial Nos. 293, 295 and 297 will be granted to Established Importers on the basis of a joint quota of past imports of all the articles falling under these

Serial Nos. but excluding the past imports of Pistons and Cylinder Liners for which separate quota licences will be granted as indicated in para. 6 below.

2. General Licences for Motor Vehicle parts will be granted on the basis of a quota of 75 per cent. of half of best year's imports from dollar area while soft currency licences will be granted on the basis of a quota of 100 per cent. of half of best year's imports from soft currency area.

3. Those owning a fleet of 25 vehicles or above will be granted licences for parts on the basis of Rs. 300 per vehicle.

4. Firms, who have imported complete Motor Cycles or Scooters in the past can be granted licences for Motor Cycle parts on the basis of a quota of 10 per cent. of half of best year's imports of complete Motor Cycles and Scooters, if they have no quota or a smaller quota for motor cycle parts.

5. Licences for Motor Vehicle parts granted on the basis indicated in the preceding paragraphs will *not* be valid for imports of;

(i) Bulb horns.

(ii) Piston rings below 6" dia. with the exception of (a) piston rings imported with the original equipment either C.K.D. or assembled, (b) piston rings for diesel engines, tractor engines or diesel motor vehicles, (c) piston rings fitted to pistons when imported as complete piston assemblies, (d) elliptical rings for use on motor cycles, (e) compensating rings and (f) expander type piston rings or hydraulic piston rings or special engineered piston rings.

(iii) Fan belts of bottom width (i.e. on the inner diameter) more than 0.250 inch, and the following rubber parts:—

(1) Radiator hoses, (2) Hand and foot pump connections, (3) Rubber horn bulbs, (4) Rubber mats, (5) Gomma Windshield Wiper, (6) Rubber buffers—doors, (7) Rubber connection for filler tube—petrol tank, (8) Air vent pipe rubber connection—petrol tank, (9) Rubber insulating washers for bolts connecting body and chassis, (10) Rubber connection—Air cleaner, (11) Rubber mountings for silencer, (12) Joint washer—Petrol filler tube with cap, (13) Rubber packing for battery clamping channel, (14) Sealing strips for trafficator boxes, (15) Sleeve rear drain pipe, (16) Rear strip roof opening, (17) Side strip roof opening, (18) Strip steering column, (19) Wind shield wiper tubing and (20) Hose pipes other than brake hose pipes.

(iv) Kool cushions, Cushion covers, Mascots, spare cushions for seats whether made of cane, metal, cloth, plastic or any other material.

(v) Cab bodies, bus bodies, station wagon bodies, truck bodies, steel cabs for lorries, pick up bodies and Panel bodies.

(vi) Pistons.

(vii) Cylinder liners.

6. As regards (i) Pistons and (ii) Cylinder liners both General and Soft Currency Licences will be granted on a quota of 75 per cent. and 100 per cent. of half of best year's imports of (a) Pistons and (b) Cylinder liners respectively from the area concerned. These licences which will be specifically granted for the import of Pistons or Cylinder liners will not be valid for the import of any other spare parts of Motor Vehicles.

APPENDIX 'J'

LICENSING POLICY FOR IMPORTS OF MINERAL OILS, KEROSENE, MOTOR SPIRIT, GREASES AND LUBRICATING OILS FALLING UNDER SERIAL NUMBERS 105 AND 106 OF PART IV AND 8, 17, 18, 19 AND 20 OF PART V OF THE IMPORT TRADE CONTROL SCHEDULE.

1. Import of Mineral Oils falling under S. Nos. 105 and 106 of Part IV and Kerosene and Motor Spirits falling under S. Nos. 18 and 19 of Part V of the I.T.C. Schedule.

Licences will be granted only to oil companies importing the article in bulk without packing.

2. Import of Greases and Petroleum jellies etc. falling under Serial Number 8 of Part V of the I.T.C. Schedule.

- (a) Special greases and lubricants for chlorine, caustic soda and sulphuric acid service are included in O.G.L. No. XXIV.
- (b) No licences will be granted for import of paraffin wax from any source.
- (c) For other greases and petroleum jellies licences will be issued on a quota basis which will be a combined one with that of general lubricating oils falling under S. No. 20 of Part V.

3. Import of Mineral Oils not otherwise specified falling under Serial Number 17 of Part V, of the I.T.C. Schedule.

- (a) For import of transformer oils, Switch oils and insulating oils and Medicinal Liquid Paraffin to U.S.P. and B.P. specifications falling under S. No. 17 of Part V of the I.T.C. Schedule separate applications should be submitted for each of those items giving full details showing the essentiality and the requirements, the party to whom they will supply the oil and the purpose for which these oils will be used, and in the case of imports ex-U.S.A. the justification for their demand giving technical reasons why oils available ex-U.K. are unsuitable for their requirements. General licences for Transformer Oils, Switch Oil, Insulating Oil and Medicinal Liquid Paraffin to U.S.P. and B.P. specifications will be granted to Established Importers on the basis of a quota of 100% of half of best year's imports for these grades only from dollar area and soft currency licences on the basis of 200% of half of best year's imports for these items from Soft Currency Area. In addition, soft currency licences will

also be granted at 30% of half of best year's imports of these Oils from dollar area.

Of all the other oils, falling under this Serial No. licences will be granted only for the following on a quota basis:—

- (1) Cutting Oils, (2) Mineral and Colza Oils, (3) Shock Absorber Oils, (4) Flushing Oils, (5) Penetrating Oils, (6) Leather Oils, (7) Textile Finishing Oils, (8) Woolrex Oils, (9) Heat Transfer Oils, (10) Wire rope compounds and Bituminous Gear Lubricants, (11) Aviation Specialities, (12) Corrosion Preventives, (13) Impregnating Oil for electrical paper and board insulators, (14) Light process oil for light coloured rubber goods, (15) Mineral oil for manufacture of insecticides, (16) Special paper softening oil for tissues and speciality papers, (17) Quenching Oils, (18) Special graphited oil for lubrication of glass moulds, (19) Aromatic Mineral Oils—Rubber Plasticisers, (20) Mineral Oil Emulsions Mould Lubricants, (21) Batching Oil for fibres, (22) Mineral Hydrocarbon oil used as a pour point depressant, (23) Mineral oils used as additive for lubricating oils, (24) Fuel oils, (25) Oils for vacuum work in laboratory equipment.

General licences will be granted to established importers on the basis of a quota of 100% of half of best year's imports from dollar area and soft currency licences on the basis of 200% of half of best year's imports from soft currency area. In addition, soft currency licences will also be granted at 30% of half of best year's imports from dollar area.

Issue of import licences for Mineral oil not otherwise specified falling under Serial No. 17 of Part V of the I.T.C. Schedule is also subject to such conditions as may be imposed and such instructions as may be issued from time to time by the Petroleum Division of the Ministry of W. H. & S.

4. Import of lubricating oils falling under Serial No. 20 of Part V of the I.T.C. Schedule.

Separate applications should be submitted for oils having viscosity over 90 seconds (Redwood 1 at 140°F) and oils of viscosities 90 seconds (Redwood 1 at 140°F) and less. Applications for the second category i.e., for the lighter lubricating oils of viscosities 90 seconds and less must mention the enduse giving quantities against each enduse. In order to give importers a certain amount of flexibility of programme, the licences to be issued for the light viscosity oils will not stipulate any viscosity limit, as there is no objection to importers bringing in some high viscosity oils against these licences, the object being solely to restrict the import of light viscosity oils. The licences to be issued for the other category i.e., lubricating oils with a viscosity over 90 seconds (Redwood 1 at 140°F) will contain a condition that the oils to be imported against the licences should have viscosity over 90 seconds.

General licences will be granted to established importers on the basis of a quota of 100% of half of best year's imports from dollar area and soft currency licences on the basis of 200% of half of best year's imports from soft currency area. In addition, soft currency licences will also be granted at 30% of half of best year's imports from dollar area. The quota will be a combined one for lubricating oils and greases.

5. No licences will be granted for import of white oil from any source and past imports of white oils will not be taken into account for purposes of calculation of quota.

6. Separate applications should be submitted to the Chief Controller of Imports, New Delhi as follows:—

I. S. Nos. 105, 106—Part IV of the Schedule, and S. Nos. 18, 19—Part V of the Schedule.

Oil Companies should apply for bulk licences.

II. S. No. 8—Part V of the Schedule.

For Greases and Petroleum jellies.

III. S. No. 17—Part V of the Schedule:—

(i) For Transformer, Switch and Insulating Oils and Medicinal Liquid Paraffin to U.S.P. and B.P. Specifications.

(ii) For the remaining Items.

IV. S. No. 20—Part V of the Schedule:—

(i) For lubricating oils of viscosities over 90 seconds (Redwood 1 at 140°F).

(ii) For lubricating oils having viscosities 90 seconds and less (Redwood 1 at 140°F) giving the end-uses and quantities against each item.

APPENDIX 'K'

RAW MATERIALS FOR PAINTS ETC.

(i) List of articles for import of which General Licences granted under S. Nos. 34, 35, 36 and 37 of Part V will be valid irrespective of their classification. Quota will however be calculated on the basis of half of best year's imports, from the Dollar Area, of all the articles falling under the S. Nos. 34, 35, 36 and 37, Part V.

1. Cellosolve.

2. Nitro-cellulose.

3. Phthalic Anhydride.

(ii) List of articles for which soft currency licences granted under S. Nos. 34, 35, 36 and 37 of Part V will be valid irrespective of their classification. Quota will however be calculated on the basis of half of best year's imports of all the articles falling under Serial No. 34 (excluding Harmless food colours, Artists' water and oil colours and pigmented water finishes for leather), 35, 36 and 37 Part V from the

Soft Currency Area. Separate quotas have been fixed for these excluded items.

1. Alkyd Resins.
2. Amino Resins.
3. Antimony Oxide.
4. Bentonite.
5. Black Oxide of Iron.
6. Blanc fixe.

21. Copper Sub-Oxide.
22. Coumarone Resins.
23. Chromium Oxide.
24. Di-Butyl Phthalate.
25. Dipentine.
26. Gold Bronze Powder.
27. Heavy Solvent Naphtha.
28. Light Solvent Naphtha.
29. Maleic Anhydride.
30. Maleic Resins.
31. Mercury Oxide.
32. Methyl Ethyl Ketone.
33. Naphthionate Driers.
34. Oiticica Oil.
35. Para Chlormatacresol.
36. Persian-Gulf Red Oxide.
37. Pigment Dyestuffs.
38. Phenolic Resins.
39. Phthalic Anhydride.
40. Prussian Blue.

41. Pumice Stone Lump.
42. Pumice Stone Powder.
43. Raw and Burnt Sienna.
44. Raw or Burnt Umber.
45. Sodium Orthophenol Phenate.
46. Synthetic Yellow Oxide.
47. Tricresyl Phosphate.
48. Tuluol.
49. Ultramarine Blue.

LIST OF ELECTRICAL INSTRUMENTS ETC. FALLING UNDER S. NO. 78 OF PART V OF THE I.T.C. SCHEDULE FOR THE IMPORT OF WHICH GENERAL LICENCES GRANTED UNDER THAT SERIAL NUMBER WILL NOT BE VALID, FOR IMPORTS FROM THE DOLLAR AREA.

(1) The following electrical domestic appliances: —

- (i) Electric cooking devices, such as, hot plates, stoves, cookers, boiling ranges, toasters, kettles, coffee-percolators, electric saucepans, warming plates, cooking ovens.
- (ii) Electric water heaters and boilers and immersion rods.
- (iii) Electric room heaters or fires, and electric elements therefor.
- (iv) Electric sterilizers.
- (v) Electric irons.
- (2) Wire Recorders.
- (3) Disc Recorders.
- (4) Drawer dynamometer.
- (5) Special Portable 2 KW Galvanised Steel Heat Unit.
- (6) Road Traffic Signalling apparatus.
- (7) Electric Meatcutter.
- (8) Electric Vulcaniser.
- (9) Cable testing equipment.

- (10) Phase shifter.
- (11) Hair Dryers.
- (12) Desk Lamps.
- (13) Electric Guitars.

APPENDIX 'N'

Import of X-Ray electromedical equipment, accessories and spare parts of electromedical apparatus etc. by the suppliers of X-Ray and electromedical equipment. [Public Notice No. 79-ITC(PN)/51 dated the 17th April 1951.]

It has been represented to the Government of India that although electromedical apparatus is allowed to be imported liberally, the suppliers of these apparatuses cannot get spare parts, accessories and supplies of allied nature for servicing and maintaining the existing equipments properly as these accessories, spare parts and articles of allied nature were classified under different Serial Nos. of the Import Trade Control Schedule which are sometimes licensable strictly on a quota basis or are not licensed at all.

2. With a view to maintain the operation of the X-ray and electromedical equipment, it has been decided that the suppliers of X-ray and electromedical equipment can apply for their requirements of various articles although they may be falling under different Serial Nos. of the Import Trade Control Schedule under one application. A list of articles desired to be imported in broad categories like rotary converters, transformers, photographic tanks, transformer oil and film hangars etc. and spare parts of the equipment should all be listed and a consolidated application should be made for all these. The requirements should be certified by the All India X-ray and Electromedical Traders' Association, Bombay.

3. On receipt of the consolidated application giving a list of the articles desired to be imported and the value of each duly certified by the Association, the Import Trade Controller at the port will grant each firm a licence for its consolidated requirements and attach the list of the articles with the licence. Where certain articles are licensed on a quota basis the reasonableness of the demand of those articles can be judged from the firm's quota in respect of that article. The quota for these articles will be merged in the licence allowed under this Public Notice. If the firms concerned have obtained any quota licence they should mention the name of the article and the amount of quota licence allowed so that adjustments for the same can be made, if necessary.

4. Although the value of individual articles as per requirements certified by the Association will be indicated in the list of articles for which the licence is granted, the licence holders can exceed the value of individual items by 25 per cent of the value for that item provided that the total c.i.f. value of the licence is not exceeded.

5. It has also been decided that the import of one pair each of lead rubber X-ray apron, lead rubber gloves (required for the

radiologist) and lead glass "goggles" may be allowed clearance under the O.G.L. when they are imported along with the X-ray equipment but not separated from it.

‘ APPENDIX ‘P’

Import Trade Control—Established Importers—Registration of Quotas—Simplification of licensing procedure. [Public Notice No. 45-ITC(P.N.)/52, dated the 26th April, 1952.]

Importers are aware that with a view to simplifying the existing procedure for governing the issue of quota licences to established importers, a scheme of Quota Registration for Miscellaneous Hardware was published in Commerce and Industry Ministry Public Notice No. 173-ITC(PN)/51 dated the 24th October 1951. It has now been decided to extend the scheme to the following commodities :—

- | | | |
|---|--------------|--------|
| 1. Sheet and plate glass. | ... | 244/IV |
| 2. Glass table ware excluding glass tumblers. | ... | 245/IV |

| 12. Toilet brushes. | ... | 322/IV |
| 13. Brushes all sorts, excluding paint and Varnish brushes, toilet brushes and brooms. | ... | 324/IV |

2. All quota certificates which have been issued in respect of the items mentioned above will be deemed to be cancelled for purposes of future quota licensing in respect of these items commencing from the licensing period July—December 1952.

3. Established importers of these items are now required to get their quota entitlement registered by adducing evidence to establish their past imports on which they rely. For this purpose they should furnish :—

- (a) A statement (in quadruplicate) in the form given in Annexure 'A' to this Public Notice, of past imports effected by them in any one financial year ending March, in the basic period 1945/46 to 1950/51. It is necessary that the complete information required in the said form should be furnished and that the correctness of the particulars given should be certified by a Registered/Chartered Accountant. In this connection attention is invited to the instructions given in Annexure 'B' to this Public Notice. The concession granted to Established importers in para. 1(ii) of Public Notice No. 109 dated the 23rd June, 1951 will also be available for purposes of claiming basic imports from countries with which trade was interrupted during the war.
- (b) It is essential that statements in form 'A' should be accompanied by the following documentary evidence:—
 - (i) Triplicate copies of the Customs Bills of Entry for home consumption, or in the case of goods bonded on arrival, copies of the original 'into-bond' bills of entry duly certified by the Customs authorities. In the case of duty free goods imported in any port or of goods of any kind imported at Calcutta, the exchange control copies of the Bills of Entry will be accepted instead of the triplicate copies. The relevant invoices should accompany the bills of entry. Where in respect of goods imported at Calcutta, the exchange control copies are not available with the importers, Customs duty receipts together with invoices attested by Customs may be produced, and
 - (ii) In respect of imports by post:—
 - (a) Postal declaration forms and customs duty receipts with relevant invoices, or
 - (b) Postal declaration forms with relevant invoices and bank drafts.

Note.—In view of the difficulties which importers may experience in producing the postal declaration forms or customs duty receipts it has been decided that where these documents are not available in respect of past imports made by post, the following documents will be accepted namely:—

- (i) Bills of Exchange.
 - (ii) Banker's Memoranda of Payment.
 - (iii) Relative invoices attested by a Custom's Appraiser.
- (c) In view of the policy decision announced in sub-para. (1) of Part 1 of the Ministry of Commerce and Industry's Public Notice No. 109-ITC(PN)/51, dated the

23rd June, 1951, it is necessary for a party claiming licences as an established importer to prove that they had imported goods falling under the same Serial No. and part of the I.T.C. Schedule in any one financial year after 1945-46 and including the financial year 1951-52, other than the year on the basis of which a quota is claimed. For this purpose, it will suffice if parties enclose with their application in form 'A' one or two triplicate copies of Bills of entry relating to imports made in the other year.

4. The applications for registration of quotas will on receipt be examined and applicants will be advised in due course of the Registration No. allotted to them and their quota entitlement. In all future applications for quota licences, commencing with the licensing period July—December, 1952, established importers of the items specified in para. 1 will be required to quote in their application the Registration No. allotted to them under the scheme, and it will not be necessary to resubmit the documents relating to their past imports.

5. Applications for registration of quotas as described in the preceding paras. should be made to the Joint Chief Controller of Imports, Calcutta, complete in all respects together with the required documents, in a registered cover (Acknowledgment Due) and superscribed as follows :—

“Application for quota registration for imports of
falling under Serial No..... of the Import
Trade Control Schedule.”

6. The last date for the receipt of these applications is the 30th May, 1952.

ANNEXURE 'B' TO PUBLIC NOTICE NO. 45-ITC(PN)/52 DATED THE 26TH APRIL, 1952.

INSTRUCTIONS TO AUDITORS

1. The value of imports should be collected from Bills of Entry and relative invoices as accepted by Customs and should be the c.i.f. value.

2. In the case of imports by parcel post, importation should be verified by reference to the postal vouchers and postal stamp marking on the consignment.

3. For the purpose of calculating total imports during a financial year, the date of importation should be taken as the date in the oval stamps that are affixed to the triplicate copies of Customs Bills of Entry for Home Consumption. In the case of postal parcels the date assigned to the Way Bill by the Post Office should be regarded as the date of importation.

4 Figures of imports of the articles concerned made in contravention of the Import Trade Control Regulations, i.e., without valid import licence where necessary, should not be included as no credit can be given for this in the calculation of quotas

5 Figures of imports of articles concerned made against letters of authority should not be included for the purpose of calculating basic year's imports

6. Figures of imports of the articles concerned made under licences granted against specific orders of D.G.S.&D (previous D.G.I.&S.) or of the Government Railways, should not be included for the purposes of calculating basic year's imports.

7. Figures of imports made against licences granted as 'Actual Users' should not be included for calculation of basic year's imports.

APPENDIX 'Q'

Import of spare parts of a major item against licences issued for the import of major item only. [Public Notice No. 29-ITC(P.N.)/52, dated the 21st March, 1952.]

The attention of importers is invited to the Ministry of Commerce Public Notice No. 184-ITC(P.N.)/51, dated the 19th November 1951, on the above subject. It has been represented that the exact scope of the concession regarding the import of spare parts against licences for the import of a major item is not quite clear and might lead to difficulties at the time of clearance of goods on arrival. It has therefore been decided in partial modification of the Public Notice under reference that the scheme will apply to specified items only.

2. For the present the scheme will be applicable to the following articles:—

- (1) Electrical instruments falling under Serial No. 39 of Part II of the Import Trade Control Schedule.
- (2) Electrical instruments, apparatus and appliances specified in Serial Numbers 45 and 46 of Part II.
- (3) Photographic instruments, apparatus and appliances falling under Serial No. 305 of Part IV.
- (4) Electrical instruments, apparatus and appliances falling under Serial No. 78 of Part V.
- (5) Instruments, apparatus and appliances falling under Serial Nos. 92, 93 and 94 of Part V of the Import Trade Control Schedule.
- (6) Industrial Sewing Machines falling under Serial No. 76 of Part V.

3. Spare parts for the above items even though classifiable under different serial numbers of the Import Trade Control Schedule will be allowed clearance up to 5 per cent. of the value of the main licence provided that the parts are essential for the working of the major article and have been given for that purpose some special shape or quality which would not be essential for their use for any other purpose.

4. This concession is, however, subject to the condition that no spare part which is for the time being on the prohibited list may be imported.

5. The question of including other articles under the scope of this concession is under examination and additions will be made from time to time. Representations from the trade and industry for the addition of any specific items to this scheme should be addressed to the Chief Controller of Imports, Policy Branch, with such relevant data as will help in coming to a decision on the point.

APPENDIX 'R'

Import of special electric bulbs which are fitted to photographic instruments, scientific instruments and other instruments and which are in a way part of such instruments and without which the instruments become unserviceable. [Public Notice No. 50-ITC(P.N.)/52, dated the 9th May, 1952.]

Representations have been received that scientific, photographic and other instruments are often rendered idle on account of the fact that they need special types of electric bulbs for use with them and normally speaking the importers of such equipment do not hold import licences for electric bulbs. The following decisions have been taken to remove these difficulties:—

- (a) In future, whenever a complete equipment is imported in which an electric bulb having some peculiarity as to size, shape or filament is used, it will be permissible to import three spare bulbs of precisely the same type and make as is fitted to the equipment imported. If the number of bulbs fitted to the equipment exceeds one, the number of spare bulbs to be imported will be thrice the number of bulbs in the equipment. This concession will be applicable whether the equipment is imported against a licence or under Open General Licence. In the former case the value of the spare bulbs will be debited to the value of the licence against which the equipment is imported. In the latter case, the spare bulbs will be allowed clearance without a licence.
- (b) In order to enable the supply of replacements to equipment already imported in the country in the past, importers holding licences for equipment of a type for which such special non-G.L.S. type lamps are required will be permitted to apply for the endorsement of their existing licences to cover the imports of special types of lamps. This concession will only be granted to established importers who have imported equipment needing such bulbs during the last three years and it will be necessary for them to produce documents (bills of entry and invoices) to show that they have made such imports during each of the last three years. On production of such documents, their existing licences for the import of a particular equipment will be made valid for the import of spare bulbs also upto a value not exceeding $2\frac{1}{2}$ per cent. of the total c.i.f. value of the licence.
- (c) Where the equipment in question has been imported in the past under Open General Licence and continues to be imported under the Open General Licence at present, established importers will be granted a special licence for the import of non-G.L.S. types of bulbs to fit such equipment equal in value to $2\frac{1}{2}$ per cent. of the value of such equipment actually imported by them during any of the three years ending 31st March 1952 provided they produce documents to show that they have been making such imports during each of the last three years.

2. Applications for special licences or endorsements on existing licences in terms of the preceding paragraph should be made to the Import Trade Controllers at the ports with the relevant bills of entry, invoices, etc., and also a treasury chalan where a fresh licence is needed, in the form and manner prescribed in the Handbook. Applications should reach the licensing authorities concerned on or before the 7th June 1952.

APPENDIX 'S'

Import licensing of Capital Goods and Heavy Electrical Plant for July—December 1952.

The scheme for licensing imports of Capital Goods and Heavy Electrical Plant as outlined in the Plant and Machinery Handbook, 1952, will remain in force without any change during the period July—December 1952. The attention of applicants is, however, specially invited to the need to give full and complete information under the heading "detailed description of goods with No. and quantity" provided in the form of application. It is not enough to say that a plant is required for a particular purpose. A large number of applications get delayed merely because complete details are not furnished which have to be called for from the applicant afresh. It is therefore emphasised that full specifications and details of the plant as offered by the foreign suppliers should be furnished when applying for these licences and in particular, types and sizes of motors, pumping sets, etc. imported with the main plant should also be indicated. Attention is also invited to the requirement in the application form requiring certain conditions to be fulfilled if the machinery desired to be imported is a second-hand or reconditioned one. Even for new plant, applicants should note that the fuller the information furnished by them the quicker will be the disposal of the case. Applications without complete details are liable to be summarily rejected.

2. All applications should be addressed to the Chief Controller of Imports, Capital Goods Division, Post Box No. 74, New Delhi.

APPENDIX 'T'

Scheme for licensing import of Irrigation Project Equipment. (Public Notice No. 17-ITC(P.N.)/52, dated the 6th March, 1952.)

The following decisions of the Government of India in regard to the issue of licences for Machinery and Equipment required by various Irrigation Project under the Irrigation Project Equipment Scheme are hereby announced for general information.

2. Subject to the provisions of paragraph 3 below the Irrigation Project Equipment Scheme shall only apply to the following goods

classifiable under Parts I, II and V of the Import Trade Control Schedule:—

PART I—

Serial No. 17.—Cast iron and Steel Valves and similar controls for waterworks, Irrigation and Hydro-Electric Scheme.

Serial No. 20.—Fabricated Gates for Dams and Barrages.

PART II—

Serial No. 9.—Iron and Steel articles and controls for Dams and Barrages also Cocks & Taps.

Serial No. 36.—All goods included in Serial No. 36(1), 36(2), 36(3), 36(4) and 36(5)—required for Irrigation, Hydro-Electrical Schemes.

PART V—

Serial No. 65.—All goods falling under Serial No. 65(1), 65(2), 65(3), 65(4) and 65(5) when required for Irrigation Projects.

Serial No. 92.—Water Meters and Measuring Instruments required for Water Works, Irrigation and Hydro-Electric Projects.

3. The Scheme will apply to applications of an aggregate value of Rs. 25,000 or over for any project or subsidiary thereto.

4. These requirements will be centrally licensed by the Chief Controller of Imports in New Delhi and all the requirements should be put in one application rather than piecemeal according to the Serial Number of the Import Trade Control Schedule. The applications will be treated in the same way as the applications for Capital Goods. They should be made in the form prescribed for Capital Goods and Heavy Electrical Plant and should be submitted in duplicate to Chief Controller of Imports through Central Water and Power Commission, New Delhi.

5. The initial period of validity for these licences will be 1 year from the date of issue and will be extended to a maximum period of 3 years on production of documentary evidence to show that a firm order has been placed and accepted by foreign suppliers. In cases where such evidence is produced at the time of submission of the application, licences will be issued with the maximum period of validity and no further extension will be necessary.

6. The applications should be accompanied with the usual treasury receipt and the Income-tax Verification Certificate Number or the specific exemption number as in the case of Capital Goods applications.

APPENDIX 'U'

Licensing of Small Tools falling under Serial No. 20(1), 20(2), 20(3), and 20(4) of Part II of the I.T.C. Schedule for the period July—December 1952. (Public Notice No. 62-ITC(P.N.)/52, dated the 16th June, 1952.)

It has been decided that licences for small tools namely metal working tools, wood-working tools, hand tools and twist drills and

reamers falling under Serial No. 20(1), 20(2), 20(3) and 20(4) of Part II of the I.T.C. Schedule will in future be granted by the Development Officer (Tools), Tools Directorate, Ministry of Commerce & Industry, Shahjahan Road, New Delhi, instead of by the Joint Chief Controller of Imports, Calcutta.

2. Applications will be entertained from Established Importers, Actual Users and Sole Agents. Applications should be made in the form and manner prescribed in the Handbook of Rules and Procedure 1952 in the same way as they were being made to the Joint Chief Controller of Imports, Calcutta.

3. The quota percentages for established importers are given in the annexed Schedule 'A'. List of small tools which are manufactured in India and whose imports are not considered necessary is given in Schedule 'B'. Licences issued hereafter for small tools will not be valid for the import of these items.

4. The basic period and the documents in support of past imports to be produced will be the same as prescribed for established importers generally for the half year in question. Quotas will be calculated for each sub-item separately on the basis of imports of articles under that sub-item and imports made against licences granted to meet orders placed by the late D.G.I. & S. (now D.G.S. & D.), Railways, etc. will not be taken into account for purpose of calculation of quota. In the application full description of the Stores e.g. size of the tools, quantities of each etc. should be given. Vague descriptions like cutting tools, wood-working tools etc. will not be accepted for the grant of licences. The validity of the licences will be 12 months from the date of issue and the limiting factor for purposes of clearance from Customs will be the Quantity but if the actual price exceeds the face value of the licence by more than 5 per cent. it will be necessary to present the licences for amendment. The increase in value will be adjusted against future quotas of the firm.

5. Actual users will be given licences for their requirements for a period not exceeding 6 months provided the articles are not banned and are not normally available from the Established importers. Only one application should be submitted as actual user for each currency area during one period. Actual users' application should be accompanied with a certificate from the Director of Industries where the factory is situated or from the Development Officer concerned in the Ministry of Commerce and Industry.

6. Sole Agents of foreign manufacturers who have no past imports or who do not want to take a licence as established importer should furnish the following information to the Development Officer (Tools):—

- (a) A certificate to the effect that they have no past imports of the small tools covered by Part II, Serial No. 20 or if they have such imports they will not claim a quota as established importer. When an established importer is claiming a sole agent licence, he should furnish information about details of imports in the past,
- (b) A copy of the agreement reached between the sole agent and the manufacturer,

-
- (c) List of types of small tools with descriptive catalogues desired to be imported. The Sole Agent will be informed whether he can be allowed any licence and applications with the requisite documents should be made only after the receipt of such intimation.

APPENDIX V

Licensing policy in the case of Machine Tools for July—December 1952. (Public Notice No. 63-ITC(P.N.)/52, dated the 16th June 1952)

For purposes of licensing, Machine Tools falling under Part VI of the Import Trade Control Schedule *vide* Schedule 'A' attached, are divided into two main categories, *viz.*:

- (a) those falling within the definition of Capital Goods, and
- (b) others.

2. The rules and procedure in the case of Machine Tools falling in the category of Capital Goods have already been set out in Chapter II of the Plant and Machinery Hand Book and, therefore, this Public Notice only deals with Machine Tools which do not come under the Capital Goods Scheme.

3. A list of machine tools whose import is not ordinarily considered necessary is given in Schedule B attached.

4. The licensing Authority in the case of Machine Tools other than those coming under the Capital Goods Scheme is the Development Officer (Tools), Tools Development Directorate, Ministry of Commerce and Industry, New Delhi.

5. Machine Tools referred to in para. 3 above will be licensed during the period July-December 1952 to Established Importers, Actual Users and Sole Agents. The main working rules and procedure to be observed in the licensing of applications from these three categories of importers are set out below :—

I. Established Importers.

(a) **Basic Period.**—The basic period for calculation of quotas to which an established importer is entitled will be any one complete financial year between 1st April 1945 and 31st March 1952, but importers will be required to produce evidence to show that they had effected imports of Machine Tools in another year during the same period.

(b) In establishing the figures of past imports for purposes of calculation of quotas the general instructions given in paragraph 4 of Chapter III of the Hand Book of Rules and Procedure, 1952 will be followed. Imports made under licences granted against the orders of the late D.G.I. & S. (now D.G.S. & D.) or of the Government Railways, under licences obtained as actual users, and under C.G. or H.E.P. licences will not be taken into consideration for the calculation of quotas. Imports of accessories like cutting tools will also not be taken into account for the calculation of quotas.

(c) The last date for applying for a quota to the Development Officer (Tools) along with the relevant documentary evidence in support of their past imports will be the 15th September, 1952. An auditor's certificate in the form annexed to this Public Notice in Schedule 'D' will be acceptable as evidence of past imports for the period July-December 1952, though the Development Officer (Tools) may in his discretion call for any other documentary evidence that he considers necessary to satisfy himself of the correctness of the statements made.

(d) Quotas on which established importers' licences will be issued are:

General 50% or half of the best year's imports of all machine tools, and

Soft 75% of half of the best year's imports of all machine tools.

(e) Quotas will be calculated separately for General Licences and Soft Currency Licences. For the former, imports from the dollar areas alone will be taken into account. Importers should, therefore, in their own interest submit separate statements showing their imports from the dollar area and the soft currency area respectively.

(f) After the quota has been accepted, the importer may make any number of applications for licence in the form given in Schedule 'C' upto the total value of the quota on or before the 30th November 1952, which is the last date for submission of application. Such applications should be made in quintuplicate. Applications should be accompanied by the necessary treasury receipts etc.

(g) Licences will be given for all permissible types of machine tools upto the value of the quota admissible to the importer subject to the proviso that the import of the following types of machine tools will be limited to such reasonable proportion of the total quota

of the importer as the licensing authority may consider sufficient to meet the current needs:—

- (i) Lathes.
- (ii) Drilling machines.
- (iii) Lathe chucks.
- (iv) Machine vices.

(h) Licences for machine tools will also be valid for import of their spares.

(i) Licences will continue to be granted to meet specific orders placed by the D.G.S. & D. and Govt. Railways in accordance with the usual procedure.

(j) The validity of licences will, in the case of machine tools required to fulfil D.G.S. & D. and Govt. Railways contracts, be in accordance with the delivery stipulated in the contract. In other cases licences will have an initial validity of 18 months from the date of issue, but importers will be enabled to clear machine tools with longer delivery periods, either by extending the validity of the licences or by the grant of fresh licences against any future quotas that may be released to them, so that contracts entered into within three months of the issue of a licence are not frustrated merely because the time taken for delivery is longer than the initial validity of the licence.

(k) The limiting factor for licences for machine tools will be quantity, but if the actual price exceeds the face-value of the licence by more than 5 per cent. it will be necessary to present the licence for amendment. The increase in value will be adjusted against the current quota. In the case of licence for spares and cutting tools value will be the limiting factor.

II. Actual Users.

(a) Actual Users should make only one application for each currency area and for each project (new or expansion) in respect of their requirements of Machine Tools during the licensing period July-December 1952 for a value not exceeding Rupees one lakh f.o.b. (Applications for higher value are considered under the Capital Goods Scheme).

(b) If the stores are required for the replacement of existing machines, any number of applications for any value can be made to the Development Officer (Tools).

(c) The provisions made in clauses (j) and (k) above under the heading 'Established Importers' are also applicable to actual user applications.

(d) Actual users' applications should always be accompanied with an essentiality certificate from the Director of Industries of the State where the factory is situated or by the Development Officer concerned of the Ministry of Commerce and Industry. In the case of applications for only spare parts, an essentially certificate from these authorities will not generally be insisted upon provided the quantity and values involved are small.

III. Sole Agents.

Applications from sole agents of foreign manufacturing firms who have no past imports for two years to establish quota will be considered on *ad hoc* basis. The sole agents should first ask for a quota indicating the value of machine tools desired to be imported and should furnish the following particulars:—

(a) A certificate to the effect that he has no past imports of any machine tools covered by part VI for two years. In case the sole agent has imports for less than 2 years, full details of the imports should be furnished.

(b) An original copy of the agreement reached between the sole agent and the manufacturer.

(c) A list of the type of machine tools with descriptive catalogues which the applicant desires to import.

The last date for applying for a quota as a sole agent is 15th September 1952. After the quota has been fixed, the applicant may make any number of applications for licence in the form given in Schedule 'C' upto the total value of quota allotted to him, prior to 30th November 1952.

The licensing authority may refuse a quota or licence to a sole agent if the machine tools desired to be imported under sole agency are not considered essential for the economy of the country or if similar and equally good machines are available from a less hard currency source.

6. All applications should be submitted to the Development Officer (Tools) complete with documentary evidence in quintuplicate, and in conformity with the general procedure fully set out in the Hand book of Rules and Procedure.

Gear hobbing machine.

Section Seventeen

Shaping machines.

Slotting machines.

Planing machines.

Section Eighteen

Vertical boring and turning mills.

Horizontal boring, milling and facing machines, Jig borers.

Section Nineteen

Special and standard machines particularly used in Railway Workshops, but not otherwise specified.

Section Twenty

Oxy-Acetylene cutting machines.

Oxy-Acetylene generators for welding and cutting including their accessories.

Electric Welding generator sets.

Section Twenty-one

Wood working machine, all types including portable and home craft types.

Section Twenty-two

Lathes Chucks.

Magnetic Chucks (electric and non-electric).

Drill Chucks.

Rotary Tables.

Dividing heads.

Tool post grinders.

Milling and indexing attachments.

Machine Vices.

Taper turning and other attachments fitted on a lathe.

SCHEDULE "B"

List of items of machine tools for which quota licences will not ordinarily be valid.

Licences for the following machine tools will not ordinarily be issued. Licences for machine tools which can be supplanted by the indigenous manufactured machines will also not ordinarily be issued. Where actual users require any of these items for their own use, the question of granting a licence can be considered provided full justification is given and it is proved that the indigenous manufacturers cannot supply the machines:—

(a) Centre lathe.

(i) Cone pulley type upto 13" height of centre.

(ii) All geared head upto 9½" height of centre.

(iii) Bench lathes.

(b) Drilling machines.

(i) Hand operated Bench Drilling machine.

(ii) Power Driven Bench Drilling machine.

(iii) Pillar Type Drilling machine upto 1½" dia capacity.

(iv) Power driven sensitive drilling machine.

(c) Shaping machines upto 26" length of stroke.

(d) Slotting machine upto 7" depth of stroke.

(e) Planing machines upto 6'×3'×3'.

(f) Hacksawing machines upto 9½" capacity.

(g) Mechanical power presses upto 30 tons capacity.

(h) Lathe chucks.

(i) 4-Jaw upto 24" dia.

(ii) S.C. geared scroll 3-Jaw upto 12" dia.

(i) Drill chucks upto ¾" capacity.

(j) Lathe centres and lathe mandrills, all sizes.

(k) Machine vices upto 6" jaw.

(l) Drill sleeves, all sizes.
